

UNITED NATIONS JOINT MEDICAL SERVICES (JMS)

Reverse-Transcriptase Polymerase Chain Reaction

Testing for COVID-19

This is to confirm that the holder of this test result was tested at the United Nations Joint Medical Services Level 1+ Clinic in Kabul, Afghanistan on the date mentioned on the certificate.

The JMS performs PCR testing with the GeneXpert 10 Color Optic System. This is a **World Health Organization**-approved testing equipment supplied by the **Global Stop TB program**.

Please contact the JMS at jmsappointment@un.org if you have any questions or if you would like to verify additional information on this test result.

The brochure of the GeneXpert testing equipment can be accessed from:
